Notes:

Scores for Brady Student:

Brady was given the Cognitive Abilities Test in April 2017. At the time of testing, he was in second grade at Alexander in A Beka Testing.

Different students bring different patterns and levels of abilities to learning tasks. He was given the Cognitive Abilities Test to help find out about his reasoning abilities. Brady was tested in all three areas: verbal, quantitative, and nonverbal abilities.

Brady's national percentile rank of 92 on verbal reasoning ability means that, compared with other students his age nationally, Brady scored higher than 92 percent. Brady's national percentile rank is 97 in quantitative ability and 98 in nonverbal ability.

Brady's composite score is derived from results from the three batteries. Brady's composite national percentile rank of 99 is a general statement of his reasoning ability.
