

February 28, 2023

Dear *Rejoice Radio* Partner,

Rejoice Radio makes a difference because of the incredible support of generous partners like you. You are an integral part to this life-changing ministry through daily prayers and faithful donations. Every day, *Rejoice Radio* reaches worldwide, impacting lives with the message of Hope. In 2022, our streaming channels reached approximately 150,000 unique listeners from over 90 countries.

To continue our ministry, *Rejoice Radio* will be conducting the spring Share-a-thon in April, with the on-air kickoff from **March 29 to 31**. This kickoff will be a time for project updates, listener appreciation, and praising God.

As you remember, 2022 was a year of trusting the Lord to get us through several complicated repairs. We are thankful that both projects in Princeton, Minnesota, and Pensacola are successfully completed.

During those repairs, the WPCS main transmitter site was off the air, and WPCS broadcast on reduced power to meet Federal Communications Commission (FCC) requirements. Per FCC law, the *Rejoice Radio* network must be turned off if WPCS, the flagship station, goes off the air. To keep from being placed in this situation again, upgrades are necessary.

After the repairs, the *Rejoice Radio* engineers thoroughly examined all the transmission equipment to assess failure threats. As a result, the largest threat is that the current WPCS transmitter is almost 28 years old and at end-of-life since replacement parts are sparse. The *Rejoice Radio* staff have been good stewards of the transmitter, but it is now necessary to replace it. Because it is still in good repair, we plan to keep it as a backup to ensure that the *Rejoice Radio* network won't go off the air.

(over, please)

During this Share-a-thon, please pray that God will provide the funds for a new transmitter. There are also a few other stations across the country that need equipment upgrades. Our spring Share-a-thon goal is **\$212,000**, which will cover the cost of both these prayer requests.

- **\$112,000**—*New WPCS Transmitter*
- **\$100,000**—*Required upgrades to multiple network station transmission systems*

Will you join us in this goal? Even a small gift can make a big difference.

Sincerely,

A handwritten signature in black ink that reads "Jeff Surgeon". The signature is written in a cursive, flowing style.
